# Memorandum

TO : Maury Rosenberg  
Special Assistant to the Attorney General

FROM : Eugene M. Propper *EMP*  
Assistant United States Attorney  
Major Crimes Division 426-7621

SUBJECT: QUESTIONS FOR CIA

DATE: December 16, 1976

Attached are the questions we feel must be answered in light of our current feelings about who is responsible for the murders. I believe quite strongly that the CIA is not going to want to answer these questions. For that reason, I think the Attorney General should make it clear to Mr. Bush that we are not on a fishing expedition, but really need the information. In addition, we should tell them that the information will not be disseminated beyond myself and the agents who are investigating the case.
